VOLUME 22

NUMBER 1

J. Meites, R. Goya and S. Takahashi	1	Review article: Why the neuroendocrine system is important in aging processes
H. Watanabe	17	Differential decrease in the rate of dopamine synthesis in several dopaminergic neurons of aged rat brain
R.G. Goya, Y.E. Sosa and J. Meites	27	Half-life of plasma growth hormone in young and old conscious female rats
M.-L. Laakso, G.G. Johansson and T. Porkka-Heiskanen	37	Lighting conditions affect the levels of plasma gonadotropins differently in old and young castrated male rats
M. Raes and J. Remacle	47	Alteration of the microtubule organization in aging WI-38 fibroblasts. A comparative study with embryonic hamster lung fibroblasts
K.J. Farmer and R.S. Sohal	59	Effects of ambient temperature on free radical generation, antioxidant defenses and life span in the adult housefly, *Musca domestica*
D.F. Goldspink, A.J. El Haj, S.E.M. Lewis, B.J. Merry and A.M. Holehan	67	The influence of chronic dietary intervention on protein turnover and growth of the diaphragm and extensor digitorium longus muscles of the rat
	79	Announcement

NUMBER 2

L.M. Matrisian, D. Davis and B.E. Magun	81	Internalization and processing of epidermal growth factor in aging human fibroblasts in culture
D.M. Drechsler-Parks, J.F. Bedi and S.M. Horvath	91	Pulmonary function responses of older men and women to ozone exposure
T. Tateishi, N. Yoshimine and F. Kuzuya	103	Serum lipid peroxide assayed by a new colorimetric method
V.K. Zbuzek, V. Zbuzek and W.-T. Wu	113	Age-related differences in the incorporation of ^{3}H-arginine into vasopressin in Fischer 344 rats
I. Davies, Y. Davidson and A.P. Fotheringham	127	The effect of vitamin E deficiency on the induction of age pigment in various tissues of the mouse
H.R. Massie and T.R. Williams	139	Mitochondrial DNA and life span changes in normal and dewinged *Drosophila* at different temperatures

NUMBER 3

A.J. Bowdler and A.M. Foster	155	The effect of donor age on the flow properties of blood. Part 1: Plasma and whole blood viscosity in adult males
M.C. Luce and C.L. Bunn	165	Altered sensitivity of protein synthesis to paromomycin in extracts from aging human diploid fibroblasts
M. Namba, M. Karai and T. Kimoto	179	Comparison of major cytoskeletons among normal human fibroblasts, immortal human fibroblasts transformed by exposure to Co-60 gamma rays, and the latter cells made tumorigenic by treatment with Harvey murine sarcoma virus
J.W. Cosgrove, J.R. Atack and S.I. Rapoport	187	Regional analysis of rat brain proteins during senescence
R. Arking	199	Successful selection for increased longevity in *Drosophila:* Analysis of the survival data and presentation of a hypothesis on the genetic regulation of longevity
	221	Letters to the Editor

NUMBER 4

R.C. Adelman	227	Editorial: Biomarkers of aging
J.A. Witkowski	231	Review article: Cell aging in vitro: A historical perspective
D. Grahn, D.C. Norman and T.T. Yoshikawa	249	Fever and aging: Central nervous system prostaglandin E_2 in response to endotoxin
A. Rahima and N.W. Bruce	257	Fetal and placental growth in young, primiparous and old, multiparous rats
N. Wongsurawat and H.J. Armbrecht	263	Comparison of calcium effect on in vitro calcitonin and parathyroid hormone release by young and aged thyroparathyroid glands
W.L. Rumsey, Z.V. Kendrick and J.W. Starnes	271	Bioenergetics in the aging Fischer 344 rat: Effects of exercise and food restriction
T. Aoyagi, T. Wada, F. Kojima, M. Nagai, S. Harada, M. Osanai and H. Umezawa	289	Relative deficiency of serine proteinase activities in spleens of aged mice
L.P. Gartner	297	The fine structural morphology of the midgut of aged Drosophila: A morphometric analysis

NUMBER 5

C.E. FINCH	305	Comment: Nathan Shock's pioneering analysis of physiological mechanisms in aging
R.B. EFFROS and R.L. WALFORD	307	Neonatal T cells as a model system to study the possible in vitro senescence of lymphocytes
W.J. CHODZKO-ZAJKO and R.L. RINGEL	317	Physiological fitness measures and sensory and motor performance in aging
W.C. BEVIER, D.E. BUNNELL and S.M. HORVATH	329	Cardiovascular function during sleep of active older adults and the effects of exercise
Y.-S. CHOI, T. IDE and M. SUGANO	339	Age-related changes in the regulation of cholesterol metabolism in rats
W.C. EASTIN JR. and L.S. BIRNBAUM	351	Intestinal absorption of two glucose analogues in rats of different ages
E. LE BOURG	359	The rate of living theory. Spontaneous locomotor activity, aging and longevity in *Drosophila melanogaster*
	371	Announcement

NUMBER 6

R.L. GUTMAN, M.R. COHEN, W. MCAMIS, C.N. RAMCHAND and V. SAILER	373	Free radical scavenging systems and the effect of peroxide damage in aged human skin fibroblasts
D.L. PALAZZOLO and S. KALEEM QUADRI	379	The effects of aging on the circadian rhythm of serum cortisol in the dog
A. FRASELLE-JACOBS, M. JEANJEAN, N. HAUSER and C. REMACLE	389	Effect of aging on the morphology of epididymal adipose tissue in the rat
R.B. MCDONALD, J.S. STERN and B. HORWITZ	409	Cold-induced metabolism and brown fat GDP binding in young and old rats
T. SAMORAJSKI, C. ROLSTEN, A. PRZYKORSKA and C.M. DAVIS	421	Voluntary wheel running exercise and monoamine levels in brain, heart and adrenal glands of aging mice
	433	Announcement
	435	Acknowledgments
	I	Volume 22 Contents
	VII	Author Index to Volume 22
	IX	Keyword Index to Volume 22
